A huge thank you to everyone that showed up to help at the corn feed. I know that everyone that was there worked extremely hard to make it a successful day. I do believe that it was a record braking day for the club when it came to the brat and burger sales! Then, as is tradition, Steve and Jo had a very nice reward to everyone who was there and helped. It was such a great feed, thank you Steve and Jo for opening up your home to the club once again.

As we got up this morning to open the shop for Lead Foot Lanny and his Crew, Kari and I couldn't help but notice the fall like chill in the air. This to me is a welcome event, I have had enough of the heat and am ready for a little fall and then to winter. However it was a great show and driving season. But I have been looking forward to the fall and winter for a chance to get back into the shop on the weekends and get some much needed work done on our rides.

A friend sent me this link (<http://www.youtube.com/watch?v=CHwwwJ83oWo>) recently to a video on YouTube about a true "OLD car nut". I must say it is one the most amazing videos I have seen. It is about a 101 year old lady and her 1930 Packard. One of the most amazing things about the video is how much she knows or remembers about the car; she says she even still changes the oil herself, crazy.

I thought I would also let you all know about a really neat new book. It is called "The Old Car Nut Book". The book is a compilation of submitted stories gathered by the author/editor. David Dickinson, the author, put the book together in a way that you feel like you are part of the stories. He says he believes that all car guys and gals have one or two good stories to tell. And a lot of these are stories you would only hear sitting around the garage with a beverage and friends.

The next meeting will be September 19th at 7:30 at Buckstop.
